

Realtor Showings are handled by our SHOWING SOLUTIONS Team Member

Our Showing Solution System handles all showing requests on your home.

Realtors call SHOWING SOLUTIONS and speak to a live operator to set showing appointments on your home. Showing Solutions will then call you to inform you of an upcoming showing and then confirm with the Realtor.

Our Showing Solution System will email you, us, and the Realtor showing your home a confirmation of the appointment. They will then e-mail a survey to find out how the showing went. You will receive the feedback survey once the agent completes the survey.

Our Showing Solution System represents the most complete and efficient appointment scheduling service in our industry.

The quality and quantity of the information this system provides allows us to serve you the best.

We send seller reports and activity journals to all our listings. Our e-mail notifications for showings and feedback go directly to you! Plus, you can log in anytime to see all feedback!

Just log in to Showing Solutions with your user name and password to check your Showing Feedback. Simple, accurate and all in one place!

3 Easy Steps! Go to www.cindybanks.com

1. Express Client Login

2. Realtor Showings

3. Log in for feedback
